**We are an after market parts manufacturer & distributor for high voltage substation equipment including circuit breakers & transformers.**

The type of parts that we typically supply are trip & close coils, pilot & control valves and the kits to rebuild them, resistors, air & gas compressors, check valves, air hoses, air receivers, gauges & pressure switches, all the Qualitrol type of transformer accessories like pressure/vacuum bleeders & gauges, seal kits for breaker & transformers, desiccants & silica gels, airtanks etc.

**WE HAVE OVER 100,000 PARTS IN STOCKS**

We cover the entire country and most manufacturers lines. We have done business with all of the fortune 500 investor owned utilities in the country, most of the OEMs, and many of the other aftermarket suppliers.

We have been in business since 1981.

We started out in the replacement parts business for the GE ATB Breakers.

We have tooling for many of the rubber to metal compression bonded ATB parts and many of the molded seals & gaskets.

We also have the orings, seals & gaskets for many of the US made Breakers.

**EQUIPMENT SUPPORTED**

- AIR CIRCUIT BREAKERS
- OIL CIRCUIT BREAKERS
- GAS CIRCUIT BREAKERS
- VACUUM CIRCUIT BREAKERS
- OPERATING MECHANISMS
- NITROGEN SYSTEMS
- TRANSFORMER GAUGES
- TRANSFORMER THERMOMETERS
- TRANSFORMER GASKETS
- AIR COMPRESSORS
- GAS COMPRESSORS
- MICROSWITCHES
- HYDRAULIC COMPONENTS
- PRESSURE SWITCHES
- LOAD TAP CHANGERS
